Upcoming Workshops and Information Sessions

November/December – Grant Writing Skills Seminars
• Broad ARC and NHMRC focused sessions
• Non scheme specific
• Held before rounds open

January/February – Scheme Specific Information Session
• Detailed information on individual Schemes
• Overview of changes from the previous round
• Tips and tricks to improve competitiveness
• Eligibility and compliance
ARC Discovery Projects

Round Status: Closed

The ARC Discovery Projects scheme provides funding for research projects that can be undertaken by individual researchers or research teams.

The ARC’s objectives of the Discovery Projects scheme are to:

- support excellent basic and applied research by individuals and teams
- enhance the scale and focus of research in the National Research Priorities
- expand Australia’s knowledge base and research capability
- encourage research and research training in high-quality research environments
- enhance international collaboration in research
- foster the international competitiveness of Australian research.

- Key dates
- How to apply
- UQ documentation
- Funding agency documentation
social or cultural benefits;
- the scale and focus of research in the Strategic Research Priorities;
- opportunities for researchers to pursue internationally competitive research in collaboration with organisations outside the higher education sector, targeting those who have demonstrated a clear commitment to high-quality research; and
- growth of a national pool of world-class researchers to meet the needs of the broader Australian innovation system.

Key dates

The following are the key round dates for ARC Linkage Projects for funding commencing in 2014.

- Release of Funding Rules: 25 August 2014
- Proposals Open in RMS: 16 September 2014

Requests not to assess (Internal UQR&I deadline): 22 October 2014

**Full applications (Internal UQR&I deadline):** 22 October 2014
- Full applications (External ARC deadline): 12 November 2014

You may review the [ARC Important Dates page](#) for indicative information regarding this and other forthcoming rounds.

Rejoinders and Rebuttal
UQR&I Grants Library Access Form

UQ Research and Innovation maintains an electronic library of successful grant proposals from previous funding years. The Library contains applications for most ARC and NHMRC grants, as well as a variety of internal and external schemes. The Grants Library provides UQ researchers with a valuable resource for drafting and preparing research proposals.

To ensure the integrity of the applications, access is not given to the complete Library. Instead, this form is used to request specific applications. The more information you can provide in this form, the better we will be able to find a suitable application for you.

Please be aware that many areas of research have few or no applications available. This is because researchers in those areas have requested not to have their applications available through the Library. We urge you to include your own successful grant applications in the Library so that your colleagues can benefit from your expertise.

All applications available through the Grants Library were successful in obtaining funding.

Your Details

E-mail address: 

Application Details
The Research Grants Unit (RGU) of The University of Queensland consists of a team of Research Administration Officers (RAOs) who are each responsible for a discrete area of the University’s research activities. RAOs generally handle the administration of funding for one or more Faculties and/or Institutes. In addition RGU has a number of specialist RAOs responsible for discrete areas.

The Research Grants Unit is also responsible for the administration of a number of The University of Queensland’s internally funded research grant schemes.
